AFFILIATIONS

<i>Arthur Dunn</i>	Retired Metallurgist, Ottawa
<i>Fathi Habashi</i>	Professor Emeritus of Extractive Metallurgy, Université Laval, Québec
<i>Philip J. Mackey</i>	Senior Metallurgist, Noranda Technology Center, Pointe Claire, Québec
<i>Peter Tarassoff</i>	Former Director, Noranda Technology Center, Pointe Claire, Québec
<i>Weldon J. Thoburn</i>	Vice President, Hatch Associates, Toronto
<i>John E. Udd</i>	Principal Scientist, CANMET, Ottawa
<i>Michael L. Wayman</i>	Professor of Physical Metallurgy, University of Alberta, Edmonton, Alberta
<i>Susan Zador</i>	Consultant, Bereskin & Parr, Toronto

The Historical Metallurgy Committee was founded in 1978 during the mandate of the then President Peter Tarasoff and on his initiative, to provide a forum for the Metallurgical Society members interested in the history of metallurgy and to promote the recording of Canadian achievement. At that time Tarasoff was Director of Noranda Technology Center at Pointe Claire, Quebec.

One of the first initiatives of the Committee was to sponsor a section in the *CIM Bulletin* entitled Historical Metallurgy Notes. In this section original research on the history of Canadian metallurgical installation, anniversaries of certain metallurgical events, history of chemistry and metallurgy in the great empires, biographies and obituaries of distinguished metallurgists and mining engineers, and book reviews, have been published. In 1989 a compilation of selected articles from the first ten years was published as a book under the title *All That Glitters: Readings in Historical Metallurgy*. The volume of 200 pages contained 26 articles directly related to Canadian metallurgical history and 17 articles of general interest. The Historical Metallurgy Committee holds its meeting during the Annual Conference of Metallurgy with a luncheon and an invited speaker. Contacts have been established with many organizations involved in the history of technology and metallurgy. For example:

- The Historical Metallurgy Society, London, England.
- Chemical Heritage Foundation in the United States, Philadelphia, Pennsylvania.
- Canadian Science and Technology Historical Association, Kingston, Ontario.
- The Minerals, Metals, and Materials Society -AIME in Warrendale, Pennsylvania
- Canadian Institute of Chemistry, Ottawa

- The Canadian Industrial Archeology Society, Ottawa
- The Engineering Institute of Canada, Ottawa
- History of Chemistry Division of the American Chemical Society, Washington, D.C.
- Das Deutsche Museum, Munich, Germany
- Institute for the History of Arabic Science, Aleppo, Syria
- The Museum Library, Miskolc, Hungary
- International Union of History and Philosophy of Science, Liège, Belgium
- Académie Internationale de l'Histoire des Sciences, Paris
- Institut pour l'histoire de l'aluminium, Paris
